

Fifty, fifty

Up to **£500** of matched funding from IT@Work Online could put your business on the web –

500%
500%

– or develop your existing site to work harder

Find out more and apply now.

Financial and practical support to take your website to the next level

‘We’ll match any sum you invest in your website on a ‘fifty-fifty’ basis – up to £500’

If you’re thinking about launching a new website or wish to upgrade one, up to **£500 from IT@Work Online** could have a big impact on the way you do business and communicate with your customers.

Funding is available for any business wishing to establish or enhance its web presence. And that goes for whether you’re a ‘one man band’ sole trader or a small to medium enterprise with up to 250 employees.

Build your first simple content managed site... upgrade your existing site to the next level... build-in e-commerce capabilities... ‘go all the way’ by implementing e-procurement.

Whatever your business, the principle remains the same. We’ll provide up to £500 against any sum you invest in your website on a fifty-fifty basis.

- Up to £500 matched funding for new *and* upgraded websites
- All privately-owned businesses eligible – from sole traders up to businesses with 250 employees
- Web development package *also includes* valuable advice and support, including training.

Interested? To find out more about how up to £500 in matched funding could mark an exciting new phase in your business website development:
